W. E. DeGroot, who is now in the Pecos Valley oil field for the purpose of selecting the best locations for placing Standard rigs to begin drilling for oil on this company's 1280 acres in that section wires as follows:

PECOS CITY, Texas, May 29, 1901

Miller & Crowe, El Paso, Texas.

Strike in Guffey well Sour Lake on land adjoining ours confirmed. Great excitement there. Prices of land going skyward. Beaumont and El Paso Oil Company strictly in it.

(Signed)

W. E. DeGROOT.

This strike makes this 550 acres worth the capitalization of the company, saying nothing about the other six valuable properties which this company owns. For the information of the public, the president of this company makes the following statement regarding the lands owned by the Beaumont and El Paso Oil Company:

TO THE PUBLIC:

Replying to numerous inquiries concerning the property of the Beaumont and El Paso Oil Company, I beg to say that before I consented to go into this organization I visited both Beaumont and Sour Lake and saw every piece of land and investigated from every possible source and standpoint. I got the opinions of capable and disinterested parties, one of them a geologist of note Prof. Osley, and I have his written report and map of this locality made in 1895 which now reads like a prophecy for he then pointed out the very spots where the producing wells at Sour Lake and the original Lucas gusher at Beaumont were put down and I had the benefit of his knowledge in reaching my conclusions and in making my investments. I visited the surrounding developments and observed the oozing oil and the escaping of gas on the lands selected for this company and on these statements and observations which are not hearsays, connected with the fact that we are associated with experienced and capable oil men. I am risking my money believing that an oily success will be ours.

El Paso, Texas, May 29th, 1901.

S. T. Turner, President
Beaumont and El Paso Oil Company.

A telegram to this city in this city dated May 29th follows:
"Sour Lake well giving better.
Kelly well showing oil today.
Great excitement in all places."
H. CROWE.

The depository of this company is the London National Bank of El Paso, Texas.
